

# Theory Gym - Privacy Policy

Effective Date: January 15, 2026

Provider: Theory Gym

Contact: kobi@doovi.me

## 1) Overview

This Privacy Policy explains how Theory Gym handles information in connection with the App.

Core design principles:

- No audio storage or upload by us: voice input is processed on-device where supported.
- No advertising tracking: we do not track you across apps or websites and we do not build advertising profiles.
- No sale of personal information and no sharing of registered-user information for third-party marketing.

## 2) Information We Collect

We aim to minimize data collection. Depending on how you use the App, we may collect:

Account information (if you create an account):

- Identifiers needed to authenticate you (for example, Sign in with Apple user identifier, Google account identifier, email address if you provide it).
- Account metadata needed to operate the account (for example, a user ID and authentication tokens).

App data (primarily on-device):

- Your exercise settings and progress (for example, selected levels, streaks, counts, and results). By default this is stored on your device.
- If you enable optional cloud sync (if offered), we store the synced items needed to provide that feature.

Purchases (if applicable):

- Purchase status and subscription entitlements from the App Store/Google Play.
- We do not receive your full payment card information; the Stores process payments.

Diagnostics (optional):

- If you opt-in via your device settings, Apple/Google may provide crash logs or diagnostics to help us improve stability.
- These diagnostics are typically non-content and do not include your raw audio.

## 3) Audio and Speech Data

We do not record, store, or upload your microphone audio to our servers.

Speech recognition and note parsing are performed on-device where supported. If any speech processing is provided by your device OS/vendor, their processing (if any) is governed by their policies and your device settings.

#### **4) How We Use Information**

We use the limited information we process to:

- Provide and operate the App (including authentication if you create an account).
- Save your settings and progress (on-device and, if enabled, via optional sync).
- Provide purchase access and restore entitlements (if applicable).
- Maintain security, prevent abuse, and debug reliability issues (including via optional diagnostics).

We do not use registered-user information for advertising targeting.

#### **5) How We Share Information**

We do not sell personal information.

We do not share registered-user information with third parties for their marketing/advertising.

We may share limited information only in the following cases:

- Service providers that help us operate the App (for example, authentication or hosting providers), strictly under contractual obligations and only as necessary to provide the service.
- Legal and safety reasons (for example, to comply with law, respond to lawful requests, or protect rights, safety, and security).
- Business transfers (if we are involved in a merger, acquisition, or asset sale), subject to standard safeguards.

#### **6) Data Retention and Deletion (72 Hours)**

On-device data remains on your device unless you remove the App or clear local data.

If you have an account, you may request deletion at any time.

After a valid deletion request (and verification), we will delete your account within 72 hours.

Limited exceptions: we may retain minimal data where required by law, to resolve disputes, enforce agreements, or for fraud/security purposes. If backups exist, deletion from backups may follow the backup lifecycle; your account will be treated as deleted and not actively processed.

#### **7) Your Choices and Rights**

Depending on your jurisdiction, you may have rights to access, correct, delete, or object to certain processing of your personal information.

You can:

- Request account deletion by emailing [kobi@doovi.me](mailto:kobi@doovi.me) (or via in-app deletion controls if available).
- Control microphone permissions via your device settings.
- Control diagnostics sharing via your device settings (if available).

## **8) Security**

We take reasonable administrative, technical, and organizational measures designed to protect information. No method of transmission or storage is 100% secure, and we cannot guarantee absolute security.

## **9) International Users**

If you use the App outside the country where we are established, your information may be processed in countries where we or our service providers operate. We apply appropriate safeguards as required by applicable law.

## **10) Children**

Theory Gym is intended for general audiences. We do not knowingly collect personal information from children in a manner that violates applicable law.

If you believe a child has provided personal information to us, contact [kobi@doovi.me](mailto:kobi@doovi.me) and we will take appropriate steps, including deletion where required.

## **11) Changes to This Policy**

We may update this Privacy Policy from time to time. If we make material changes, we will provide notice within the App or via the Stores, where feasible. The Effective Date will reflect the latest version.

## **12) Contact**

Questions or requests can be sent to: [kobi@doovi.me](mailto:kobi@doovi.me).
